

Math Portfolio Chapter Reflection

After every chapter in our math book, you will be required to complete the blue assignment sheet and a chapter reflection summary.

BLUE ASSIGNMENT SHEET

- All 4 columns (points possible, points earned, total earned and total possible) are filled out
- On the last line, find the percent for total earned over total possible.

CHAPTER REFLECTION SUMMARY

Write a summary 7-10 sentences about the concepts and standards learned in the chapter.

- The summary should include:
 - Lesson(s) or assignments that were difficult and easy.
 - An explanation of at least one concept that was reviewed in a classwork assignment that had a learning log.
 - A reflection of your quiz and test scores. Explain what worked in helping you achieve a successful test/quiz score. Explain what you would do in the future, if your test score was not successful.
